

Longevity Impact Forum

Call for the papers and for participation in Scientific Panel.

The Longevity Impact Forum Organizing Committee is inviting you to join the Longevity Impact Forum (LIF) organized by the DAYS Exchange. The Longevity Foundation aims are: gathering leading global experts, investors and breakthrough companies, and fundraising, in order to make available better health and longevity services to billions of people. Our initiative is supported by European Federation of Academies of Sciences and GINA.

About the Longevity Impact Forum

The purpose of the Longevity Impact Forum is to create an investment platform for longevity and P4 medicine services, gathering top life science experts. In the process of verifying the longevity technologies, top-100 scientists will make the Rating of longevity technologies, Ranking of longevity services providers, and will pledge for their decisions. Our methodology of Rating of longevity technologies was announced in Oxford, at DAYS Longevity Conference (<https://www.facebook.com/marin.livadaru.9/posts/2035541043329342>)

It is anticipated that the travel and lodging expenses up to a certain amount for the presenters will be reimbursed. You provide us with the right of publishing quotes of your paper. If a paper has multiple authors, one author is paid, others are invited as the guests.

The investment system of DAYS Scientific Blockchain Panel.

DAYS contributors will elect the DAYS Scientific blockchain panel of 100 top experts, who will later propose companies for the DAYS funds to be invested in.

The Agenda:

The Longevity Impact Forum pre-event on June 27, 2019, in Zurich, Switzerland,

Tentative Keynotes of Longevity Impact Forum in Zurich:

1. **Realizing the promise of longevity research and development, by creation of the first Rating of Longevity technologies.** S. Jay Olshansky, Board of Directors of the American Federation of Aging Research
